Replacement Blade CB-2S — Ø22.5 mm Multi-Fit Cleaver Blade

The Ø22.5 blade for Fujikura, INNO and Jilong cleavers — and for Chinese-made and other cleavers built around the same disc.

Alongside the Ø20 pattern there is a second universal disc: 22.5 mm across, 2 mm thick, 16 numbered positions. It is the blade inside Fujikura, INNO and Jilong cleavers and many Chinese-made and other cleavers built to the same pattern — and the CB-2S is our blade for it, in both centre styles.

CB-2S — Ø22.5 mm diameter, 2 mm thick, 16 positions

Key Features

- Our own CB-2S — the Ø22.5 mm x 2 mm blade pattern shared by Fujikura, INNO and Jilong cleavers and many Chinese-made and other cleavers
- 16 cutting positions on a numbered ring
- Position-hole ring and plain centre variants, matched to your cleaver when you order
- Field-replaceable by the user in minutes
- Private labeling made to your requirements — your labels, part numbers and barcodes on the inner boxes and outer cartons

Specifications

Fits	Many Fujikura, INNO and Jilong cleaver models, and Chinese-made and other fiber cleavers built for the Ø22.5 mm blade — matched by pattern
Blade diameter	22.5 mm
Blade thickness	2 mm
Cutting positions	16
Centre styles	Position-hole ring or plain centre, by variant
Replacement	Field-replaceable by the user

In Use

Match the pattern, not the badge: check your old blade's diameter (22.5 mm), thickness (2 mm), position count (16) and centre style, and fit the matching CB-2S variant. Send us the cleaver model or a photo of the blade and we will match it for you. When the last position is spent, the swap takes minutes in the field. Compatibility: aftermarket replacement blade, our model CB-2S — not an original Fujikura, INNO or Jilong part. Those names are trademarks of their respective owners, used only to describe the cleavers this blade pattern fits.

Private Label & OEM

The K-CB550R is supplied in neutral, unbranded stock as standard. Private labeling is made to your requirements — labels with your logo, part numbers and barcodes on the inner boxes and outer cartons, so the goods arrive ready for your warehouse. Custom barcode & contract labeling is applied to every inner box and outer carton to your receiving specification.

In the Box

CB-2S replacement blade x1 (variant matched to your cleaver).
