Rotary Coaxial Cable Stripper K-352

A rotary coax stripper with a flip cassette — RG59/6 on one side, RG7/11 on the other — plus round and flat cable jacket stripping and a built-in cutter.

A rotary coaxial cable stripper with a reversible blade cassette: RG59/6 on one side, RG7/11 on the other. It strips coax in a two-stage rotary action, also opens round UTP/STP and flat telephone cable jackets, and carries a cutter at the nose.

K-352 rotary coaxial cable stripper for RG59 RG6 RG7 RG11

Key Features

- Reversible cassette: RG59/6 on one side, RG7/11 on the other — flip it, no spare parts to lose
- Two-blade rotary strip takes jacket and dielectric in one go
- Thumb-screw blade adjustment sets depth for different insulation thicknesses
- Also strips round UTP/STP and flat telephone cable jackets
- Built-in cutter at the nose for trimming the cable to length
- Large finger loop — the tool rotates around the cable in a few turns
- Bright yellow body, hard to lose on site or in the toolbox

Stripping a round cable

In Use

Seat the cable in the cassette sized for it, close the tool and turn it around the cable; jacket and dielectric strip in one pull. Set blade depth with the thumb screw for the insulation at hand.

Private Label & OEM

Supplied in neutral, unbranded stock as standard. Private labeling is made to your requirements — labels with your logo, part numbers and barcodes on the inner boxes and outer cartons, so the goods arrive ready for your warehouse. Custom barcode & contract labeling is applied to every inner box and outer carton to your receiving specification.
