Ratchet Hex Crimping Tool K-CX3

A ratchet hex crimper with quick-change dies — the photographed set crimps 1.5, 2.5 and 6 mm² terminals and coax connector rings, and other die sets swap in with two screws.

A ratchet hex crimping tool with interchangeable die plates. The supplied set carries 1.5, 2.5 and 6 mm2 hex nests for wire terminals and coax connector rings; other die sets fit the same frame.

K-CX3 ratchet hex crimping tool with interchangeable dies

Key Features

- Ratchet action with full-cycle release — every crimp completes before the jaws open
- Interchangeable die plates (31 × 31 mm), changed with two screws
- Supplied die set: 1.5 / 2.5 / 6 mm² hex nests for terminals and coax connector rings
- Star-wheel pressure adjustment at the pivot
- Further die sets available per order for other terminal families
- Steel body, black finish, yellow grips; blister retail packing

The supplied die set — 1.5 / 2.5 / 6 mm²

In Use

Pick the nest stamped with the terminal size, crimp until the ratchet releases, and check the hex shows even flats. Adjust pressure on the pivot star wheel if test crimps pull out.

Private Label & OEM

Supplied in neutral, unbranded stock as standard. Private labeling is made to your requirements — labels with your logo, part numbers and barcodes on the inner boxes and outer cartons, so the goods arrive ready for your warehouse. Custom barcode & contract labeling is applied to every inner box and outer carton to your receiving specification.
